PROFILE

Motivated and versatile IT services with experience in business analysis, web development, and geospatial systems. Proven ability to lead cross-functional projects, streamline data systems, and deliver results in both private and public sectors. Currently pursuing an MSc in Data Science at the University of Sunderland. Actively seeking part-time roles in IT support services, customer service, or research assistance, etc.

WORK EXPERIENCE

- Business Analyst / Web Developer** 2024 - 2025
Synergy Empresa Ltd, Ghana
 - Led and co-developed multiple systems for land data management, including map-integrated apps and virtual tours.
 - Designed interactive tools for client management (e.g., Lumen App) reducing client wait time by 25%
 - Created data-driven dashboards for hospitals and government stakeholders using Power BI and Excel.
- Drone Pilot** 2022 - 2024
Lumen Development, Ghana (Contract)
 - Operating drones for aerial mapping, surveying, and photography. Skilled in flight planning, data capture, and post-processing for use in GIS, land development, and inspection projects. Ensures compliance with aviation regulations and safety protocols.
- IT Teaching Assistant** 2022 - 2023
University of Energy and Natural Resources, Ghana
 - Facilitated tutorials and workshops for undergraduate computer science students
 - Provided one-on-one support to students in programming and software use
 - Graded assignments and supported lecturers in course planning
- Graphic Designer (Freelance)** 2022
Eusbet Hotel & Local Clients
 - Designed brochures, flyers, and posters for marketing campaigns
 - Edited photos and created digital banners for hotel promotions
